Skills

Programming Languages:
JavaScript (ES6), HTML, CSS, SCSS

Libraries & Frameworks:
jQuery, React, Bootstrap, GSAP, Materialize

Tools & Platform:
Webpack, NPM, WordPress, SVN

Design:
Photoshop, Illustrator

Projects

I have built more than 25 live websites and applications using technologies like JS, jQuery, HTML, SCSS.
Few of ones I built:
www.montereystagecoachlodge.com
www.buenavistainnsf.com
www.visitoakdale.com
www.sirensoceanfrontrestaurant.com/
www.foothillsquaredental.com
www.bwswansboro.com
www.visitoakdale.com

I have also made few personal projects using React:

Indecision App: Indecision is a decision making application. The app saves data in the local storage. I have created components from scratch as well as implemented 3rd party components.
GitHub | Live Website

Accordion App: This is a simple accordion made using React. It uses React state and gets data from object.
